

# Portable, Cost-Effective Scanning

## EZData™

Experience low-volume data collection projects that require accurate results, immediate feedback, and cost effective processing.

When space is at a premium, the small scanner size (5.5" x 5.5") offers portability and overall convenience.

### **Know when it's time to scan**

The ready light on the front of the EZData scanner indicates when the scanner and software are ready to process forms. A green light shows that the scanner is ready; red means that it is not.

### **Light weight for easy portability.**

Need to change locations? Just pick up the scanner and go.

### **Control scan direction**

Using the software, direct forms out the back or front of the scanner. A directional arrow appears on the scanner bed to remind you of the correct form orientation.

### **Easy cleaning**

The EZData scanner's flexible read head cover tilts upward for easy cleaning.

## Scanner Applications

The EZData scanner is ideal for many data collection projects including:

- Classroom testing
- Course evaluations
- Instructor evaluations
- Skills testing
- Training and development surveys
- Customer satisfaction surveys
- Climate surveys
- Conference evaluations
- Quality inspections

## Scannable Forms

Standard and custom scannable forms are available for the EZData scanner.

## Scanner Reliability

Backed with a full year limited warranty from the date of purchase, with additional years of support available, our exclusive replacement program helps ensure minimum disruption of your scanning operation.

## Software Interfaces

- **Scantron's ScanTools® utility software.** Maintain files and define scannable EZData forms—plus scan, edit, validate, and display data. Convert scanned data into formats compatible with other popular software packages, such as Microsoft® Excel or SPSS®.
- **Remark Classic OMR®** Easily score tests and tabulate simple surveys. Produce customizable charts, graphs, and grade reports with the click of a mouse. Export data to other popular formats for analysis.

## Technical Specifications

Communication	<ul style="list-style-type: none"><li>• RS232 connection or USB 1.1 or 2.0 connection</li></ul>
Physical Description	<ul style="list-style-type: none"><li>• Length: 5.54 (140.72 mm)</li><li>• Width: 5.54 (140.72 mm)</li><li>• Height: 2.60 (66.04 mm)</li><li>• Weight: 2.5 lbs. (1.14 kg)</li></ul>
Environment	<ul style="list-style-type: none"><li>• Operating Temperature: 41° to 113° F (5° to 45° C)</li><li>• Operating Humidity: 30% to 80% (non-condensing)</li><li>• Storage Temperature: -40° to 140° F (-40° to 60° C)</li><li>• Storage Humidity: 5% to 90% (non condensing)</li></ul>
Power	<ul style="list-style-type: none"><li>• Voltage Range: 100-240 volts AC 47-63 Hz</li><li>• CE Mark Certified: External Universal Power Supply</li></ul>
Operation	<ul style="list-style-type: none"><li>• Hand Feed: 25 to 30 forms/minute</li><li>• Power On/Ready Indicator: Two Colored LED, red and green</li><li>• Single Side Read Head (Bottom): .25" (6.4 mm) spacing (1 timing mark/12 responses)</li><li>• Form Sizes: 3.25" x 3.25" (83 mm x 83 mm) to 3.25" x 14" (83 mm x 356 mm)</li><li>• Form Type: Ink (pencil, blue and black ink marking instruments may be used).</li><li>• Stackers: Eject form out the back or the front of the scanner</li></ul>
