

California Grade 2 Assessment Package

Meeting 2nd Grade Diagnostic Assessment Requirements

With the sunset of the Standardized Testing and Reporting Program, the requirement that students in Grade Two participate in the summative assessment was eliminated. To ensure that teachers have information about the developing language arts and computational skills of their grade two students, California Education Code (EC) Section 60644 requires the California Department of Education (CDE) to gather information regarding existing diagnostic assessments, evaluate that information to ensure that the legal requirements and other criteria are met, and to make the information available to local educational agencies.

Let us help and make it easy for you...

- Purchase Scantron Performance Series diagnostic, computer-adaptive tests for your second graders!
- Supporting services are included for purchases that exceed 1,150 student licenses.

How easy can it be? We'll do most of the work for you!!

- 1 District purchases a special, 3 month license for testing in Reading and/or Mathematics
- 2 Scantron helps you get started with loading student data and reviewing online test administration procedures
- 3 2nd grade Students take online, computer-adaptive assessments in Reading and/or Mathematics (Spanish Math Available)
- 4 Scantron will send you electronic testing results you can submit to the California Department of Education (CDE), while also instantly accessing online reports to understand the student's performance, as well as receive parent reports in English or Spanish for use with parents.
